Explanation of Tax and Rate Types and the format of the Monthly Local Tax Rate Report

Act 98-192, known as the Local Tax Simplification Act of 1998, required each county and municipality to submit to the Department a list of any sales, use, rental, lodgings, tobacco, or gasoline taxes levied or administered and the current rates thereof. Act 2018-150 requires all counties and municipalities to notify the Department in writing of a new tax levy or amendment to an existing tax levy at least 60 days prior to the effective date of the new tax or amendment. Act 2018-150 also provides that the effective date of the new tax levy or amendment of an existing tax levy shall be the first day of the third month following the Department's receipt of proper notification as required by law. In accordance with the Tax Simplification Act and Act 2018-150, this publication lists each county or municipality in strict alphabetical order, listing tax types, rate types, the agency that administers the tax, and the current rates.
