

tered parties bus(es) if there are plans to travel into any of the Western jurisdictions. This is due to some Western jurisdictions non-IRP registration requirements.)

4. Recreational vehicles (defined as a vehicle used for personal pleasure or travel by an individual or the family).
5. Vehicles operating with a restricted license plate. Restricted plates are defined as a registration that has time (less than a registration year), geographic area, distance, or commodity restriction. Types of Alabama restricted plates include:
 - A. Alabama farm (F) plates. These plates are restricted in that Alabama law allows these plates to be used only by a farmer transporting farm products or personal property of the farmer for his use on his farm.
 - B. Alabama forestry (L) plates. These plates are restricted in that they may only be used on trucks owned and used by any person for transporting forest products from the point of severance to a sawmill, a papermill, or to a concentration yard. (These tags are allowed only on trucks.)
 - C. Motor vehicle dealer plates;
 - D. Any fully registered Alabama vehicle that hauls logs into Mississippi. Alabama and Mississippi have a reciprocity agreement whereby Mississippi recognizes full fee registered Alabama trucks, tractors, or truck-tractors to haul logs in an interstate movement into or out of Mississippi. This agreement involves the transportation of logs (not sawdust or similar products) and does not permit intrastate operation in the jurisdiction in which the vehicle is not licensed. (Note: IFTA is still required on qualified vehicles.)
 - E. Cotton module (CM) plates. Issued to vehicles designed and especially constructed to transport only raw cotton from harvest to a cotton gin (within or outside the State of Alabama).

DISTANCE REPORTING

It is the applicant's responsibility to properly complete all forms necessary to license vehicles under IRP. If required information is missing from a submitted application, the application will be returned. Applications will not be considered as received until they are complete.

New IRP applicants are to file estimates of anticipated operation in each jurisdiction during the license year. For the second and all subsequent years, registrants renewing their fleet registration must provide the actual distance traveled in each jurisdiction during the mileage reporting period. Estimated distance shall be permitted for a second consecutive year if the actual fleet operations did not exceed three months of the mileage reporting period.
