SUBJECT: ETAPS Enhancements

Effective August 14, 2008, the following enhancements will be implemented in the ETAPS system:

- A Seller Button has been added to the Application to pre-populate the current Alabama titled owner as seller
- A "no fee" Application for Re-submittals of non-etaps applications has been created
- A new Senior User level (allows void access but not user management) has been added
- The Void Function Rules have been updated to allow the user to create a new application using data from a previously voided application
- A "no fee" application for county license plate issuing officials is now available

Effective August 15, 2008, the EFT Payments will change from 10 business days to the next business day. This will not affect pending payments initiated prior to this date. These pending payments will still be deferred for the full ten business days.

Finally, updated county interface specifications have been posted to our website and will be available on August 15, 2008. Please notify your internal IT staff or IT vendor of this update. Note that both the current version and most recent previous version of the interface will be supported.
