Introduction & General Information

Alabama Department of Revenue Mission Statement:

The Alabama Department of Revenue will efficiently and effectively administer the revenue laws in an equitable, courteous and professional manner to fund governmental services for the citizens of Alabama.

Overview of Modernized e-File Program (MeF):

The Alabama Department of Revenue (ADOR), in conjunction with the Internal Revenue Service (IRS), is accepting the following tax forms for 2020/2021 by using the IRS' Modernized E-File system (MeF):

1. 20C - Alabama Corporate Income Tax
2. 20CC - Alabama Consolidated Corporate Income Tax
3. 20S - S Corporation Information/Tax
4. 65 - Alabama Partnership/LLC
5. PTEC - Non-Resident Composite Return
6. 41 - AL Fiduciary Income Tax Returns
7. CPT - Alabama Business Privilege Tax Return and Annual Report For C-Corporations
8. PPT - Alabama Business Privilege Tax Return and Annual Report For Pass-Thru Entities

The transmission method will be a Web Service using Simple Object Access Protocol (SOAP) with attachments messaging. The return data will be formatted using Extensible Markup Language (XML). Authorized E-File providers, also known as Electronic Return Originators (ERO's) can submit returns to the IRS MeF system for federal and state return processing.

Software developers must test with the ADOR and receive approval prior to submitting live returns.

General Information:

The Department will accept the following return types:

- Linked (Forms 20C, 20S, 65 and 41)
 - Unlinked (PTEC, 20CC, CPT and PPT)
1. Linked - The E-File Program works best when the Federal and State returns are filed together in one transmission to the IRS (although this is not always possible). Upon receipt, the Internal Revenue Service will validate and verify the federal return data. The IRS will either accept or reject the federal return. The state return is only available to the Department after the federal return is accepted by the IRS. If a Fed/State submission is rejected by IRS, the state will not receive the state return portion. The Fed/State submission must be re-submitted.
 2. Unlinked - IRS provides the ability for an ERO or individual to transmit/retransmit a state return through the fed/state system without simultaneously transmitting a federal return. There is no difference in the transmission sequence. State-Only returns are transmitted to the IRS, validated and made available for states to download in the same fashion as with the traditional fed/state transmission. This provides a means for individuals who file multiple state returns to have each participating state's return electronically filed. However, each state return must be transmitted separately. The taxpayer's federal return must be completed, transmitted and accepted by the IRS before transmitting/re-transmitting a State-Only return.

The **complete** federal return and the necessary supporting schedules as filed with the IRS are required to be attached in XML for the Alabama return to be considered complete. Failure to attach the complete federal return with the necessary supporting schedules may result in the imposition of delinquent penalties.

There are a few filing types which do not require the federal return to be attached:

1. Form PTEC
2. Form 20C - 20C Proforma Returns (filing status 5). The complete federal return should be transmitted with the parent who should file a Form 20CC.
3. Form CPT – Insurance Companies and Real Estate Investment Trusts do not have to attach the federal return.
4. Form PPT – Disregarded Entities are not required to attach the complete federal return.

Exclusions from Business Electronic Filing include:

- Amended returns
- Returns that cannot be e-filed for federal purposes

Alabama will only accept one return each filing season, any subsequent filings such as additional short year returns and amended returns must be filed by paper.

Please note: The Department will generally not approve a request to waive the electronic filing requirement if the software purchased or licensed by a taxpayer or a return preparer does not include all of the features necessary to comply with the Modernized e-File requirements set forth in Department regulations, revenue procedures, publications, and other instructions posted to the <http://www.revenue.alabama.gov> website.

The Department of Revenue encourages electronic filing; however, we neither support nor recommend any software company. You must address technical and support issues with the company whose product you select.

State of Alabama MeF Program Rules and Regulations

Participation in the MeF Program:

Those who wish to participate in the Federal/State Electronic Filing Program must first apply to the IRS using the online form. Information for Authorized IRS e-file Providers and Publication 3112, IRS e-file Application and Participation specifies the application process and requirements for federal participation. In order to begin e-filing tax returns, you must apply and be accepted as an Authorized IRS e-file Provider. The quickest way to apply is to use the IRS e-file Application On-Line.

The ADOR automatically accepts electronic filers (electronic return originators and transmitters) which have been accepted to participate in the Federal Electronic Filing Program. No additional registration is required on the part of electronic filers. This document, **Publication AL4163 Alabama Handbook for Electronic Filers of Corporate/Partnership Income Tax Returns** is to be used in conjunction with **IRS Publication 4163**.

IRS Publication 4163 provides detailed instructions on policies and procedures for the federal electronic filing program. All rules, regulations, and requirements governing tax preparers, transmitters, and originators of returns specified by the IRS are in effect for the ADOR. Together the documents specify the requirements for the joint electronic filing of Alabama corporate or partnership income tax returns and federal corporate or partnership income tax returns. **Therefore, electronic filers are encouraged to become thoroughly familiar with both documents.**

ERO and Transmitters Responsibilities:

Electronic Return Originators (EROs) and transmitters must be approved with the IRS in order to submit Fed/State (Linked/Unlinked) or State-Only (Unlinked) returns. EROs and transmitters must maintain a high degree of integrity, compliance, and accuracy to continue participation in the Alabama Electronic Filing Program.

CONFIDENTIALITY

Unauthorized access or disclosure of confidential taxpayer information will result in severe Federal and Alabama criminal and civil penalties. In accordance with Code of Alabama 1975, §40-2A-10 disclosure of confidential information in violation of this statute is a class A misdemeanor.

COMPLIANCE

Alabama participates in the federal/state electronic filing program. Therefore, any software developed must meet **all** federal **and** state requirements. The following guidelines compliment IRS.

- Comply with all federal and state procedures, requirements and specifications as defined in the following publications:

- IRS Publications 4163 - *Modernized e-File Information for Authorized IRS e-file Providers of Forms 1120/1120S*
- IRS Publication 4164 - *Modernized e-File Guide for Software Developers and Transmitters*
- Alabama Publication AL4163 – *Alabama Handbook for Electronic Filers of Business Income Tax Electronic Filing Income Tax Returns*
- Alabama Publication AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Business Income Tax Returns*
- Alabama Publication AL4162 - *Alabama Business Income Tax Electronic Filing Test Package*

Responsibility to Clients:

EROs are entrusted with the task of filing a client’s tax return and must assume the responsibility of ensuring that the return arrives at the Alabama Department of Revenue. In the event that the electronic Alabama return fails to arrive at its destination, EROs must notify their clients of the requirement to file a paper return.

Form Retention Requirements:

The ERO is required to retain an electronic copy of all returns, form AL8453-C, AL8453-PTE, AL8453B and/or AL8453-FDT, and schedules submitted for a period of **three years from the due date of the return or the date the return was filed**, whichever is later. If the need arises, the Department may request any of the documents, in writing, and the ERO must provide a copy of the document within five working days of the request.

Should an ERO decide to no longer remain in the business, the Department must be notified, in order to, determine the proper resolution of electronic filing program documents and records.

Monitoring and Suspension of Electronic Submission Policy:

The Department will monitor the quality of electronic transmissions. If the quality is unacceptable, the Department will contact the ERO, software developer or transmitter. The Department will also monitor complaints about electronic filers and issue warning or suspension letters as appropriate. **The Department reserves the right to suspend the electronic filing privilege of any electronic filer, software developer or transmitter who varies from the requirements, specifications and procedures stated in this guide, on Form ESA-B or any corresponding administrative rules, or who does not consistently transmit error-free returns.** When suspended, the electronic filer, software developer, or transmitter will be advised of the requirements for reinstatement into the program.

E-File Waiver Policy:

Software Limitations: The Department will generally not approve a request to waive the electronic filing requirement if the software purchased or licensed by a taxpayer or a return preparer does not include all of the features necessary to comply with the Modernized e-File requirements set forth in Department regulations, revenue procedures, publications, and other instructions posted to the www.revenue.alabama.gov website.

Information Applicable to All Forms

Transmitting the Returns:

Authorized E-File providers can transmit returns to the IRS MeF system for Federal and State return processing. State submissions can be made as a Federal return with a State Return attached, a linked Fed/State return, or just a State return, known as a State Only or unlinked submission (*a complete copy of the federal return as filed with the IRS must also be attached to a state only submission*). Each return (Fed/State or State Only) must be in a separate submission. Multiple submissions can be contained in a single message payload.

Packaging of data and transmission payload must be in the proper format.

Returns filed in XML format with SOAP attachments allow for binary attachments to the submission. These attachments may consist of Signature documents, balance sheets, statement records, or other types of documentation. The allowed file type for attachments is file extension .PDF. The file order of attachments and procedures must follow IRS requirements for binary attachments as found in IRS publication 4163. The Department will allow for binary attachments to the state return. Send data elements only if they contain data values. Do not send empty data elements (i.e., zero financial fields, unused elements, etc.)

Other Packaging Guidelines:

- A submission contains either an IRS return or a state return
- Each submission is a separate file.
- Each federal return must be submitted in the agreed upon IRS XML format.
- Each state return must be submitted in the XML format specified and agreed to by IRS, state agencies, transmitters, and software developers.
- Each state return must include a copy of the FEDERAL RETURN as submitted to the IRS and any attachments associated with that federal return in XML.
- If the IRS rejects a Fed/State submission, the state will NOT receive the state return portion. The Fed/State submission must be resubmitted.
- Each submission must be in Zip Archive format.
- No nesting of Zip archive files or returns will be allowed. (i.e. one submission, one zip.)
- The SOAP message itself must not be compressed or zipped.
- The message contains a header, a body, and an attachment. See Modernized E-File Logical ICD Model for message layout and message technical specifications.
- ERO's and transmitters must be approved with the IRS in order to submit Fed/State or State Only returns.
- The Department will produce an acknowledgement of acceptance or rejection for each state submission. The transmitter may then retrieve the Department's acknowledgement from the IRS.

Transmitting Consolidated Corporate Income Tax Returns:

The Consolidated Form 20CC will be packaged independently in a submission.

The Form 20C Filing Status 5 subsidiary will be packaged independently in a submission.

Separate submissions may be packaged in the same transmission therefore the Forms 20CC and 20C Filing Status 5 proforma returns may be transmitted together. The Form 20C Filing Status 5 return is the **only** return that is not required to submit the complete federal return and attachments as submitted to the IRS.

Attachments to the Electronic return:

The tax return may also include non-XML documents, known as “binary attachments”, submitted in PDF format. Approved tax preparation software must provide the necessary instructions for creating and submitting all required attachments. These attachments include items from the following sources:

- Required by the return. Example – a line on the form states “attach itemized schedule”
- Required by the form instructions. Example – instructions state “attach a statement to line XX...”

Approved MeF tax preparation software should provide the necessary instructions for creating, scanning or exporting documents in PDF format and submitting these documents as attachments that are required by Alabama and IRS Publications, Code, and/or Regulations. Preparers will create the binary attachments as pdf documents and submit them as electronic files attached to the MeF return. Check with your software provider to see if your software will support binary attachments. These binary attachments are included to allow taxpayers the ability to provide requested documentation that includes required signatures and third party documents as required by forms and instructions (signed copy of lease, signed appraisal statement, etc).

Alabama programming will validate binary attachments by proper location and required title.

Also, the number of attachments will be verified. If the total number of binary attachments in the XML does not match the number of pdf attachments the return will be rejected.

Conditional Binary Attachments for forms 20C, 20CC	Required Binary Attachment Title

The Form AL8453-B/AL8453-C/ AL8453-FDT/AL8453-PTE must be completed and signed by all required parties. Do not submit this form to the Alabama Department of Revenue unless requested to do so. The ERO is required to retain a copy of this form along with an electronic copy of all returns, forms and schedules submitted for a period of three years from the due date of the return or the date the return was filed, whichever is later. If the need arises, the Department may request any of the documents, in writing, and the ERO must provide a copy of the document within five working days of the request.

Electronic Payment Options:

Corporate/Partnership taxpayers who file their 20C, 20CC, 20S, 65, 41, PTEC, CPT, and PPT returns electronically must also pay the tax liability electronically.

*Any liability due should be remitted no later than the original due date of the return. For forms CPT, PPT and 41 payments of \$750 or more must be made electronically. Non-electronic Business Privilege Tax payments must be remitted with Form BPT-V. **DO NOT MAIL FORM BPT-V IF THE PAYMENT IS REMITTED ELECTRONICALLY.**

ELECTRONIC PAYMENT. Section 41-1-20 requires electronic payments for all single business tax payments of \$750 or more. Substantial penalties may be assessed for noncompliance.

Please see the below link for payment options:

<https://revenue.alabama.gov/individual-corporate/payment-options/>

Acknowledgement Types:

The Department will generate an acknowledgement for all returns received. The acknowledgement record/XML schema format is included in this publication.

The Alabama acknowledgement types are:

1. ACCEPTED: This acknowledgement indicates the electronic return was received and successfully completed the pre-entry validation process. No further action is required regarding the transmission.

Any return not acknowledged by the Department as “accepted” is considered not filed.

2. REJECTED: This acknowledgement indicates the electronic return was received and failed to successfully complete the pre-entry validation process. **The acknowledgement will contain an error rejection code number followed by a message indicating the error causing the rejection, or in the case of a schema validation error only the schema error message will be displayed.** The error conditions must be corrected and the return can then be re-transmitted as a “State-Only” return. If a rejection occurs on the due date of the return it will be considered timely filed if it is corrected and re-transmitted **within the 10 calendar day perfection period.** Only after all attempts to correct the return and re-transmit have failed may the return be filed as a paper return. In order for the paper return to be considered timely it must be filed by the later of the due date of the return or ten (10) calendar days after the date Alabama gives notification the return is rejected. The paper return should include (1) an explanation of why the return is being filed after the due date (2) a copy of the reject notification from Alabama to avoid late filing penalties and interest and (3) a signed copy of the AL8453C/AL8453B/AL8453-PTE/AL8453-FDT in lieu of a signature on the paper return.

Returns prepared with software that is not approved by the Department will be rejected.

Unless authorized by the taxpayer to discuss the return with the preparer, the Department will communicate directly with the taxpayer if additional information is needed to correct a return. EROs and transmitters will only be given limited information about the tax return, including acknowledgment of receipt by the Department through the IRS and the reason for any processing delay.

See Publication AL4165 for Alabama Error Reject Codes.

EROs and Transmitters should allow 5 business days to receive the State acknowledgement before contacting the Department.

Error Categories:

All MeF business rules are divided into 12 error categories. The first eight categories validate the XML data:

1. Missing Document – a tax return document is required but was not included in the tax return.
2. Data Mismatch – the data in two fields should be the same but is not.
3. Duplicate Condition – the tax return or the transmission file was previously received and accepted by the Department. This includes if a return was previously submitted via paper.
4. Math Error – results when a computation is incorrect.
5. Incorrect Data – data violates a business rule even though it is syntactically correct. That is, the data values for elements must conform to the format specified and the data type. Also, the data values for elements must contain only values allowed for them in the schema.

6. Missing Data – data is not provided for a required field.
7. Database Validation Error – data provided does not match the IRS database or the data provided should be present in the IRS database but is not. (e.g. the SoftwareID in the Return Header must be listed in the MeF database and in accepted status.)
8. XML Error – the data violates Schema specification. The return and transmission documents must conform to the version of the XML schema they specify.
9. System Error – a return encounters a problem with the IRS systems that prevents the return from being processed electronically.
10. Unsupported – a submitted item(s) is sent to a location that does not accept it or an unusual condition is encountered in the data.
