Summary of Topics Discussed

NSA Email Notice of Payments and Returns

A change request has been submitted to update the online report site to allow users who may have failed to get an email notifying them of payments or returns to print it from the report site. The email notifications will continue for returned payments.

Consistently Rejected ACH Debit Payments

Prior to the August conference call, a question was raised by a locality about ACH debit taxpayers whose payments are consistently rejected.

The department cannot block an ACH Debit taxpayer from submitting their returns through ONE SPOT.

Possible Solutions:

- A filed return is an admitted liability that is subject to all the assessment processes allowed by the locality.
- The ongoing history of failed payments after receiving consistent written notices about the issue leans toward the fact that the taxpayer is knowingly submitting a bad payment. If the taxpayer is deliberately submitting a payment they know will fail, fraud penalties could apply.
- §13A-9-13.1. Negotiating worthless negotiable instrument Generally was updated in 2014 to include electronic drafts in the definition of negotiable instruments.
- Returns filed electronically for non-state administered jurisdictions are required to be paid electronically. Failure to resolve ongoing payment issues may result in the jurisdiction not acknowledging receipt of the associated electronically filed tax return, producing delinquency notices and "Failure to Timely File" penalties.

February Returned Payment

There were a few localities that had a one or more payments from February 2019 that were returned at the beginning of the month. In researching the delay of these returned payments, it was found that they had failed to be loaded to the payment processor's system and were found during an audit their accounting department was doing. The Department has requested that in the future the payment processor give us notice when something like this occurs so that we can notify the affected local governments.

Interest Rate – 4th Quarter 2019

The Internal Revenue Service announced on August 28, 2019, that underpayment interest rates will remain the same for the calendar quarter beginning October 1, 2019: 5%.

Next Conference Call - Next meeting will be Tuesday, October 8th, at 10:30 a.m.

Tax accounts closure notifications were sent for taxpayers that have filed all zero returns for the past calendar year January through December 2018 for Sales Tax, Seller's Use Tax, Consumer's Use Tax, Rental Tax, or Lodgings Tax, along with the associated state-issued Local Tax account. This process has completed until February 2020 when the 2019 filings will be reviewed.
