General Information

Once the exemption application is approved, an exemption certificate is mailed or emailed to the certificate holder to present to vendors for purchases of building materials, construction materials, and personal property to be incorporated into the Industrial or Research Enterprise Project related to the specific project.

All certificate holders that qualify to make purchases for an Industrial or Research Enterprise Project for qualifying projects are required to report and remit unabateable sales and use taxes, including county and municipal sales and use taxes designated for educational purposes. Unabated taxes should not be remitted to the vendor. These returns are required to be filed through the department's online tax return filing and payment portal, My Alabama Taxes (<https://myal-abamataxes.alabama.gov>) or through the local tax administering agency. See Rule 816-6-4-.24.

Certificates are not transferable and may only be used by the person, firm, or corporation whose name appears at the bottom of the certificate. The certificate is not authorized to be used for purchases which do not qualify for abatement.

Extension Request

Certificates of exemption can be extended by the Department of Revenue up to one year from the original expiration date stated in the abatement agreement. The extension request must be made in writing by the private user on the company letterhead and the granting authority must be copied in the letter. If an extension request is beyond one year or if the original expiration date has been expired for over a year, the granting authority must approve the extension by sending a letter to the private user and copying the abatement administrator.
